Headteacher: Andrew Watson

Dear Parents and Carers,

In Grangemouth, we believe that our schools and early years settings are at the heart of our community. To ensure our learners receive the best opportunities across the town, our schools have worked together to create a shared vision: **We are Grangemouth: Together, we shape the future.**

We previously asked our community what is required to make the learner journey the best it can be. The result is a commitment to a partnership between families, learning environments, and the wider community.

Please find key documents attached to this email that outline this shared commitment:

The Parent & Carer Charter

This charter outlines how we work together to ensure our learners are successful, confident, and responsible. By enrolling your child in a Grangemouth Cluster school or early years setting, you join a team dedicated to their journey. We ask that you join us in:

- **Driving Ambition:** Speaking positively about learning and ensuring regular attendance.
- **Guiding With Respect:** Modelling respectful communication and valuing our inclusive community.
- **Uniting Our Community:** Engaging with the school or ELC and acting as partners in the learning process.

Being a Grangemouth Learner

This document is designed for our children to help them understand their role in our team. It encourages them to:

- Believe there is no limit to what they can learn.
- Treat everyone fairly and listen so that others are heard.
- Take pride in being part of the Grangemouth team.

Cluster Vision Poster

This poster summarises our core values—Ambition, Respect, and Community—and our promise to support every child in reaching their goals, whether that leads to a trade, employment, or university.

We know that no one succeeds alone. We ask that you join us in staying united as a community to help your child realise what they are truly capable of.

Thank you for your continued support in making Grangemouth a place where every child can achieve amazing things.

Kind regards,

Andrew Watson
