Edition #1 - 28.05.2026

Brought to you by the PLT
(Pupil Leadership Team)

This superstar is only in P2 but she just backflipped into acrobatics and won a silver trophy in her exams! She showed us that with motivation and resilience anything is possible! She showed us how to do her favourite moves, handstands and backflips, so now it's our turn to practice!

This superstar's love for Pokémon turned him into a competition winner! His teacher entered him into a drawing contest, and he filled his sketchbook with awesome Pokémon characters, especially his favourite one, Charizard. It was the most fun ever. He showed everyone that if you love something and have enough ambition, you can do whatever you set your mind to!

This superstar in P2N did the Muddy Tuff Mudder competition and won a pure white medal! It was a big challenge with 12 obstacles altogether. She had to climb muddy ropes and jump over messy obstacles, but slipping and sliding through the muddy marshes was her favourite part!

This P3L superstar did something amazing! She swam backstroke in the deep end of the pool to win a really special certificate, and she did an awesome job! Even though she smashed the backstroke, she revealed in her interview that front crawl is actually her favourite. Way to go!

Our P7P superstar has been doing something amazing at Loch Lomond! He paddled around the loch on his own paddleboard and went about 2.0 miles! Paddleboarding isn't his only extreme sport, though. He also does taekwondo every single week, so sharks beware — he knows how to fight back!

This superstar in P3K is a great helper who is always there! He got a very special trophy from his Boys' Brigade leaders for having a 100% attendance rate. That's not his only prize, though. He also received a special certificate for being in the brigade for three years! Well done!

Meet this superstar from P3K! She is training to be an amazing gymnast and can do awesome tricks like round-offs, aerials, and cartwheels! She practices all her moves in Falkirk and has already won a special award for the best gymnast move. She is definitely a superstar!
